## Advanced Technology For

- Improving Indoor Air Quality
- Utilizes germicidal UV- Clamps: 253.7nm
- Irradiates air and exposed surfaces with ultraviolet rays
- Use in unoccupied areas- Portable and Handy
- Rooms as large as 100 & 200 sq. ft. can be treated in 30 minutes

Handy Standy is a mobile device for flexible use for air and surface disinfection.

This device is developed as a Supplement to standard cleaning in rooms where no personnel are present.

#### Typical Room Contaminant Reduction

- Produces no ozone or other secondary contaminants
- No additional chemicals necessary
- No waste is generated

# Advantage Handy Standy

- Effectively kills virus and bacteria.\*\*
- Safe to use in OFFICES, CLINICS, HOSPITALS and HOMES.
- Extra dosage of UV-C Germicidal for fast purification.
- Optimum and compact size for storing and mobility.
- Strong after sales services and availability of spares.
- Tested and verified by NABL ISO/ IEC 17025 accredited Lab.
- Sturdy material used for durability.
- Product designed to achieve 360° germicidal irradiation.
- AMAKE-IN-INDIA initiative.
